PREFACE

As an older member of the third generation I find it a calling rather than a duty in collecting biographies for the family history. It has taken time, effort and endurance to accomplish the task. Many were willing to help and did it cheerfully. To look back in the family circle one can quickly detect the changes which have taken place. The years that have rolled by seem like a very short time. The young chaps of fifty years ago are the aged of today. One member of the second generation is 95 summers young. The information will prove itself helpful as a guiding course in many ways, even unto the younger generations. A few dates can be traced back 148 years.

Beginning with August 18, 1849 to Aug. 18, 1946 the family numbers 464 persons. There are 128 marriages recorded with only 70 deaths, leaving the number of living 394.

Some of those asked to provide data have failed to do so and therefore complete information is impossible.

Bertha Dorothea Bernecker.
